INFORMATION

Be inventive on how you spell your name - the census taker was!

Microfilm #1236 (Ohio, Lucas Co.-Excluding Toledo) at the Toledo-Lucas Co. Public Library was used to compile this index.

The page numbers are stamped numbers with the exception of pages 577 and 595 which are handwritten.

The "B" page is the page following the printed number page. "C" and "D" are used when the numbered page has been duplicated. BE AWARE when you see C or D there is duplication of pages and order is confusing.

The FIRST column is the SURNAME:

- + - after the surname denotes Mulatto
- * - after the surname denotes Black
- ^ - after the surname denotes Indian

The SECOND column is the GIVEN NAME:

When initials were used instead of a name you will find a dash and "m" for male and "f" for female

The THIRD column is the AGE:

- 0 - is six months or less
- 1 - is 7 months through one year

The FOURTH column is the OCCUPATION:

See list of abbreviations

Blank in column denotes either "at home" or nothing was listed

In several townships this column was used to show relationship to the head of the household. This is shown in the index as: Liv/w/ - a-aunt; b-brother; c-children; d-daughter; grf-grandfather; grp-grandparents; m-mother; si-sister; s-son; u-uncle

The FIFTH column is the BIRTH PLACE:

See list of abbreviations

The SIXTH column is the FAMILY NUMBER:

* - after a family number shows that number is duplicated in that township - use page number

You must use the township name together with the family number as each township has a family number 1, family number 2, etc.

The SEVENTH column is the TOWNSHIP NAME:

The first five letters of the township have been used

The EIGHTH column is the PAGE NUMBER:

Sylvania township ends with page 130 and the next page is 528.
Before and after is consistent other than noted under townships.
